Agent & Supervisor Guide

Your Complete Guide to Managing Sales and Calls

The image shows a login interface for SalesCRM. At the top, there is a logo consisting of a blue square with a white checkmark and a green circle with a white checkmark. Below the logo, the text "SalesCRM" is displayed in bold, followed by "Professional Sales Management Portal" in a smaller font. The main heading is "Sign in to your account", with the subtitle "Access your personal sales dashboard and performance metrics". The login form contains two input fields: "Email address" with the placeholder "Enter your email" and "Password" with the placeholder "Enter your password" and an eye icon. Below the password field is a checkbox labeled "Remember me". A blue "Sign in" button is positioned below the form. Below the button is a link "Need help?". At the bottom of the form, there is a link "Don't have an account? Contact your manager". In the bottom left corner, there is a red notification bubble with a white 'N' icon, the text "1 issue", and a close button 'X'.

8. Tips & Troubleshooting

1. Getting Started

1.1 Signing In

Welcome to SalesCRM! To access the system, you'll need to sign in with your credentials provided by your administrator.

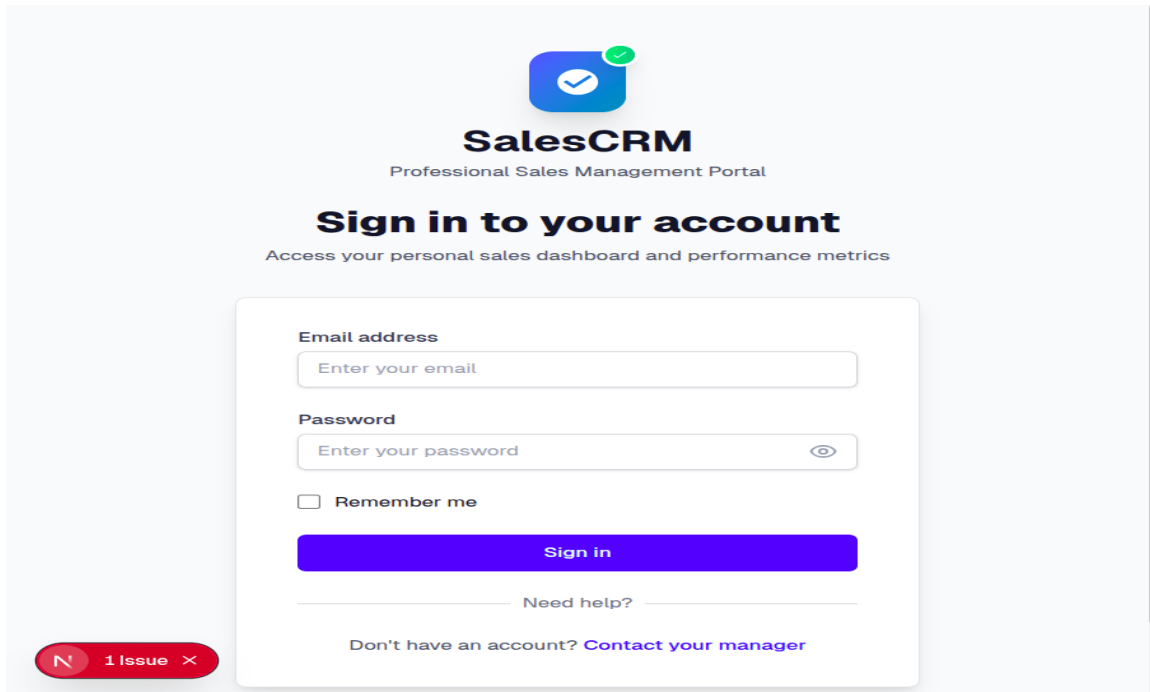

The image shows the SalesCRM login interface. At the top, there is a blue square logo with a white checkmark and a green checkmark above it. Below the logo, the text "SalesCRM" is displayed in a bold, black font, followed by "Professional Sales Management Portal" in a smaller font. The main heading is "Sign in to your account" in bold black text, with the subtitle "Access your personal sales dashboard and performance metrics" below it. The login form is a white box with a light gray border. It contains two input fields: "Email address" with the placeholder "Enter your email" and "Password" with the placeholder "Enter your password" and an eye icon for toggling visibility. Below the password field is a checkbox labeled "Remember me". A large blue "Sign in" button is positioned below the form. Underneath the button is a link "Need help?". At the bottom of the form is a link "Don't have an account? Contact your manager". In the bottom left corner of the page, there is a red pill-shaped notification that says "1 Issue" with a close button.

Figure 1.1: Sign In Page

To sign in:

1. Enter your **Email Address** provided by your manager
2. Enter your **Password**
3. Check **Remember Me** to stay signed in (optional)
4. Click **Sign In**

1.2 Location Permission

SalesCRM requires location access for timezone detection and security. When prompted:

- Click **Allow** when your browser asks for location permission
- If blocked, click the lock icon in the address bar and enable Location

Tip: Location helps display appointment times in your customer's timezone!

1.3 Navigation Overview

After signing in, you'll see the navigation bar at the top with these options:

- **My Dashboard** - Your main sales overview
- **Dialing** - Make calls and view call history
- **Customers** - View your customers
- **IVR Calls** - View IVR call history
- **+ New Sale** - Create a new sale (green button)
- **Phone Icon (IVR Dialer)** - Quick dial for IVR/helpline calls
- **Bell Icon** - View notifications

1.4 IVR Dialer (Phone Icon)

The phone icon in the navbar opens the **IVR Dialer** - a quick way to make helpline or IVR calls without leaving your current page.

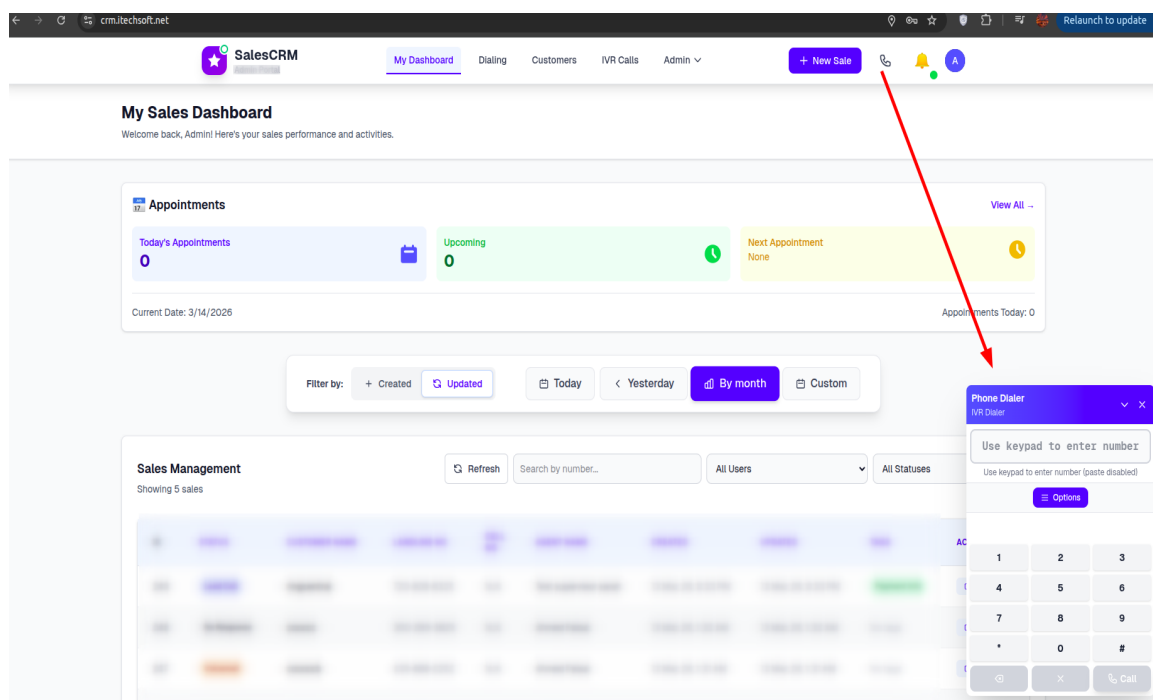

Figure 1.2: IVR Dialer - Click the phone icon to open the dialer panel

How to use the IVR Dialer:

1. Click the **phone icon** in the navigation bar (next to notifications bell)
2. The Phone Dialer panel will appear on the right side
3. Use the **keypad** to enter the phone number
4. Click **Options** to select a helpline if needed
5. Press the green **Call** button to start the call
6. Use **Mute** or **End Call** buttons during the call

IVR Dialer has 3 tabs:

- **Keypad** - Enter numbers directly using the on-screen keypad
- **Helplines** - Access saved carrier helpline numbers

- **History** - View and redial from your call history

Helplines Tab:

Click the **Helplines** tab to see saved carrier numbers for quick dialing:

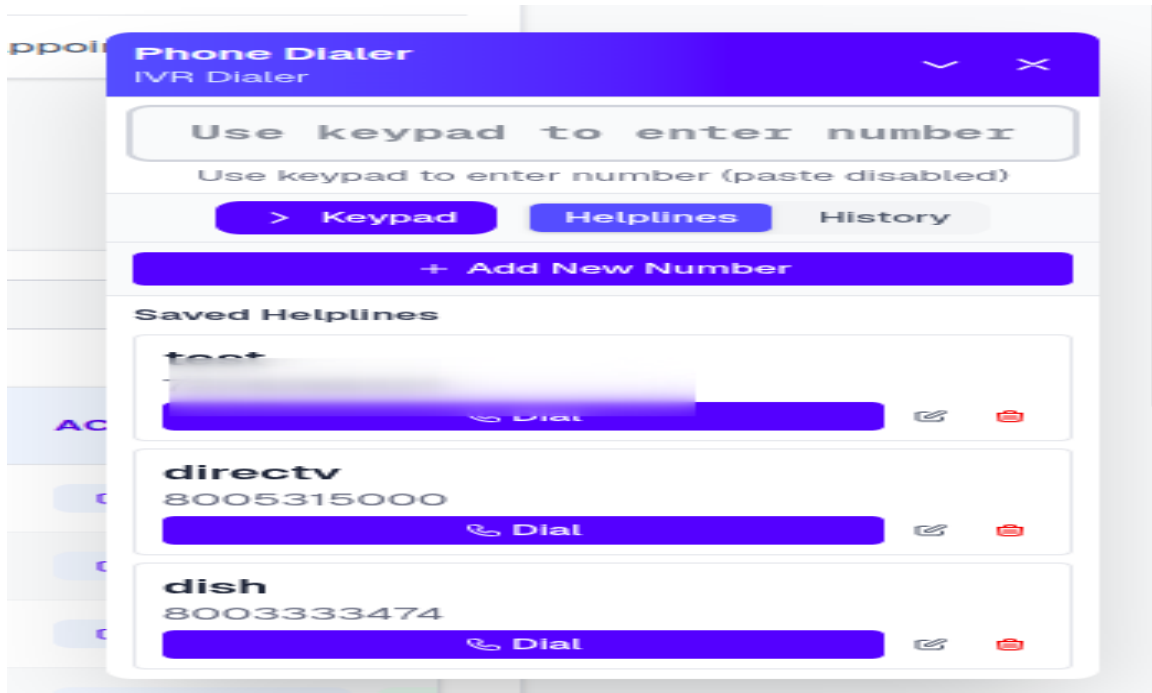

Figure 1.3: IVR Dialer - Helplines Tab with saved carrier numbers

- **Saved Helplines** - Pre-configured numbers like DirecTV, Dish, etc.
- **+ Add New Number** - Save your own frequently used numbers
- **Dial Button** - Click to instantly call any saved helpline
- **Edit/Delete** - Manage your saved numbers

History Tab:

Click the **History** tab to see your recent IVR calls and redial:

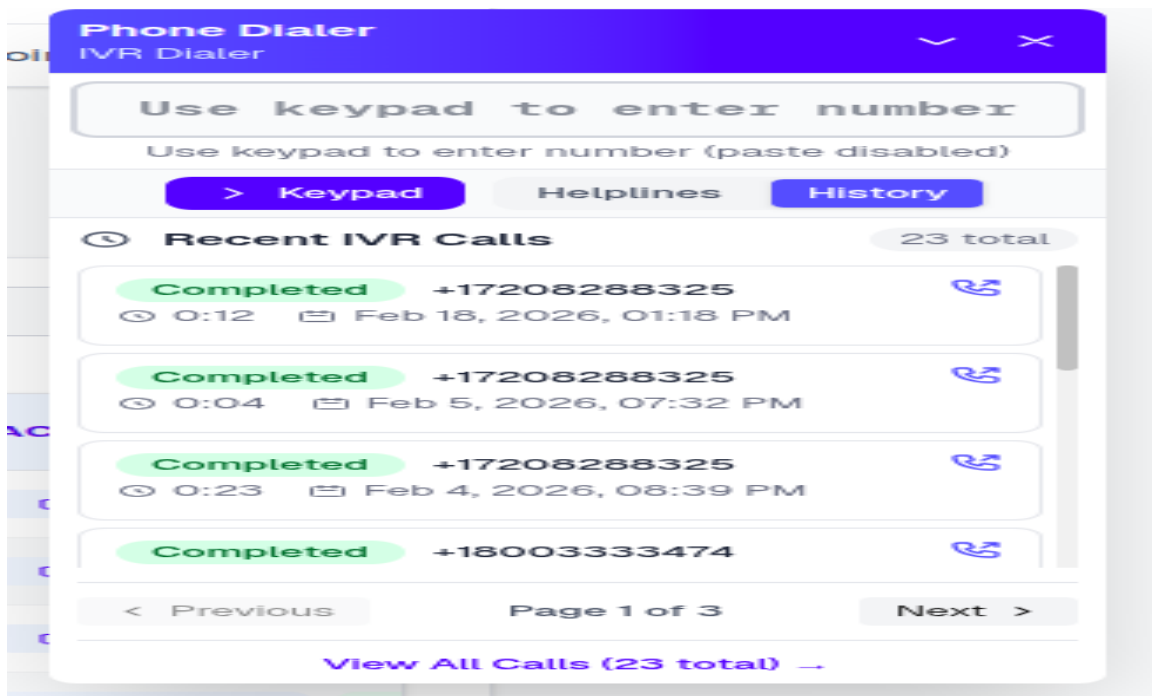

Figure 1.4: IVR Dialer - History Tab showing recent calls

- **Call Status** - See if calls were Completed, Missed, etc.
- **Phone Number** - The number that was called
- **Duration** - How long the call lasted
- **Date & Time** - When the call was made
- **Call Icon** - Click to redial the number directly from history
- **View All Calls** - See complete IVR call history

Tip: Use the Helplines tab to quickly call carrier support (Dish, DirecTV) without memorizing numbers!

2. Your Dashboard

The Dashboard is your home base. Here you'll see your appointments, sales, and quick actions.

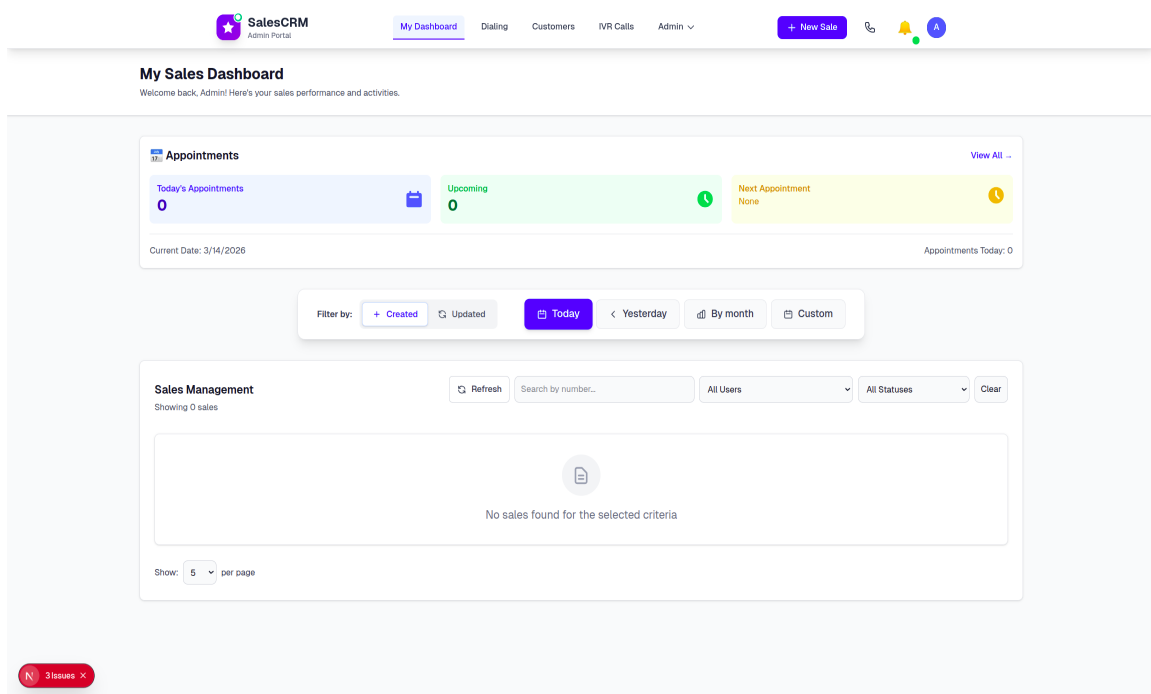

Figure 2.1: Dashboard Overview

2.1 Appointments Summary

At the top of your dashboard, you'll see your appointment summary:

- **Today's Appointments** - Number of callbacks scheduled for today
- **Upcoming** - Total upcoming appointments
- **Next Appointment** - Your next scheduled callback

2.2 Sales Table

The Sales Management table shows all your sales with columns for ID, Status, Customer Name, Landline No, Cell No, Created date, Updated date, Tags, and Actions.

2.3 Filtering Sales

Use the filter bar to find specific sales:

- **Date filters:** Today, Yesterday, By Month, Custom range
- **Status filter:** Filter by Lead, Appointment, Sale Done, etc.
- **Search:** Search by phone number

3. Making Calls (Dialing)

The Dialing page is where you make outbound calls and track your call history.

The screenshot shows the SalesCRM Admin Portal interface. The top navigation bar includes 'My Dashboard', 'Dialing' (active), 'Customers', 'IVR Calls', and 'Admin'. A '+ New Sale' button and user profile icon are on the right. The main section is titled 'Call Logs' with a sub-header 'Lead Dialing'. Below this, there's a 'Lead Dialing' form with a 'State' dropdown menu. A 'Call history' section features filters for 'State', 'City', 'Phone', 'Status', and 'Notes', along with 'Apply' and 'Clear' buttons. A 'Today' button is also present. At the bottom, a message states 'No call logs yet' with a suggestion to use 'Quick Dial'.

Figure 3.1: Dialing Page

3.1 Lead Dialing Tab

Use Lead Dialing for structured cold calls with state/city tracking:

1. Select the **State** you're calling
2. Select the **City or Zipcode**
3. Enter the **Purpose** of your call
4. Enter the **Phone Number**
5. Click the **Call** button

Tip: The system automatically records call duration and outcome for your reports!

3.2 Quick Dial Tab

Use Quick Dial when you just need to make a call without location tracking:

- Enter customer name (optional)
- Enter phone number
- Add purpose and notes
- Click Call

During an Active Call:

When you're on a call, an **Active Call** panel appears on the right side with call controls:

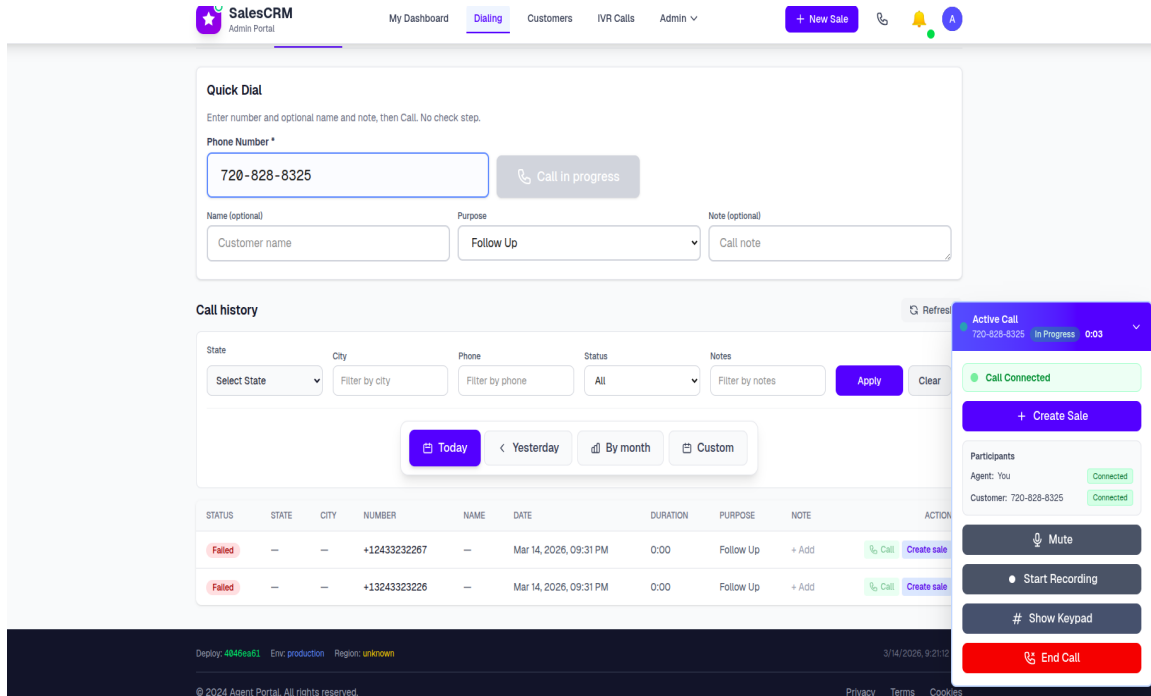

Figure 3.2: Active Call Panel - Create Sale while on call

Active Call Panel Features:

- **Call Status** - Shows 'In Progress' with call duration timer
- **Call Connected** - Green indicator when call is connected
- **Create Sale** - Click to create a new sale for this customer
- **Participants** - Shows Agent (You) and Customer connection status
- **Mute** - Mute your microphone
- **Start Recording** - Record the call
- **Show Keypad** - Open keypad for IVR navigation
- **End Call** - Hang up the call

Tip: Click 'Create Sale' during the call to open the sale form with the customer's number pre-filled!

3.3 Check Number Tab

Before creating a new sale, always check if the number exists:

- Enter the phone number and click **Check**
- If found, you'll see the customer's history
- This prevents duplicate customers!

3.4 Call History

Below the tabs, you'll find your complete call history with:

- Call status (Connected, No Answer, Voicemail)
- Date, duration, and notes
- Actions: Call Again, Create Sale, Add Note

4. Managing Sales

4.1 Creating a New Sale

You can create a sale by clicking **+ New Sale** in the navbar, or by clicking **Create Sale** during an active call.

Add New Sale
Create a new sale record with customer and sale information

Step 1: Initial Contact

Buttons: Hangup, No Response, Voicemail, Appointment, Lead Call, Sale Done, Not a Customer, Disconnect #

Customer Information

Name *
I spoke to
Enter Attendee Name

LandLine Number * (Read-only - called)
Cell Number
555-123-4567

Last Sale for this number
Sale ID: 249
Status: Lead-Call
Date: 3/13/2026
Time: 9:33:26 PM
Period: Yesterday
Agent: Test supervisor sarah

Physical/Service Address
Street Address

Figure 4.1: Add New Sale Page

The Add New Sale page shows:

- **Status Buttons** - Hangup, No Response, Voicemail, Appointment, Lead Call, Sale Done
- **Customer Information** - Name, Landline, Cell Number, Address
- **Last Sale Info** - Shows previous sale details for this number
- **Download DOC** - Download sale document

Customer Already Exists Check:

When you click a sale action button, the system checks if the customer already exists:

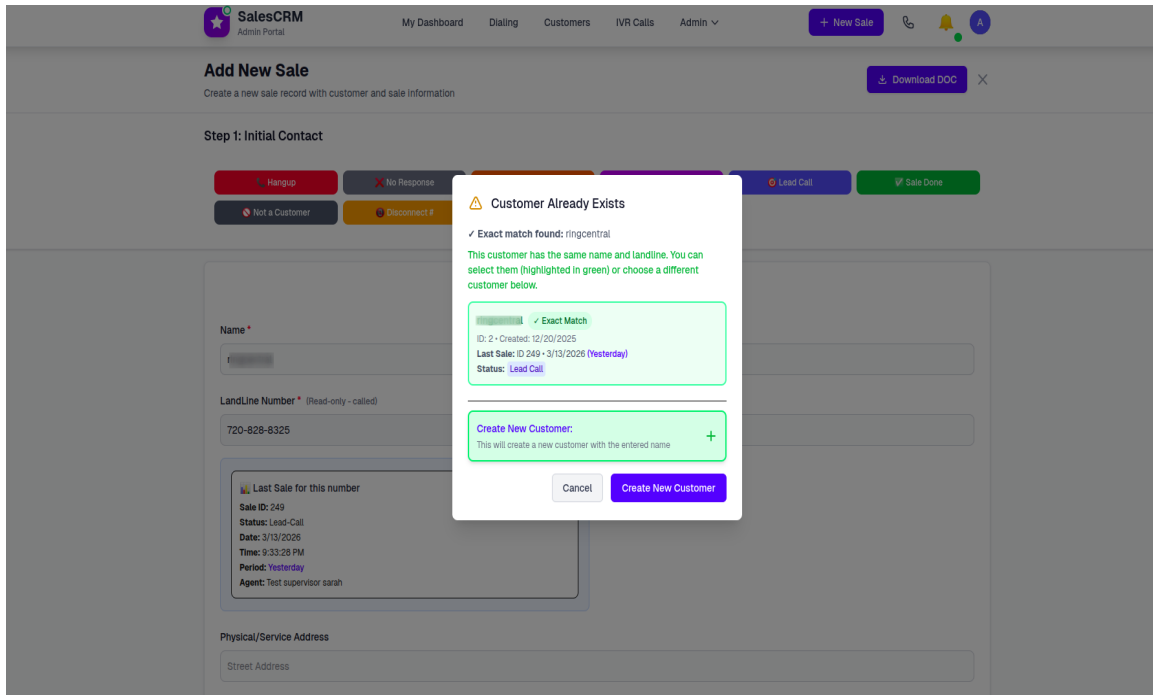

Figure 4.2: Customer Already Exists Popup

If a matching customer is found:

- **Exact Match** - Shows customer with same name and landline (highlighted in green)
- **Customer Details** - Shows ID, creation date, last sale info
- **Select Existing** - Click the green highlighted customer to use existing record
- **Create New Customer** - Click to create a new customer instead

Important: Always check if customer exists to avoid duplicate records! Select the existing customer when possible.

Customer Information to collect:

- **Name** (required)
- **Landline Number** - Auto-filled from call
- **Cell Number**
- **I spoke to** - Name of person you spoke with
- **Physical/Service Address**

4.2 Sale Status Workflow

Sales progress through different statuses:

Stage	What Happens
Lead	New customer, first contact
Voicemail/No Response	Couldn't reach customer
Appointment	Scheduled a callback

Sale Done	Sale completed successfully
Active	Being processed (verification/payment)

4.3 Adding Payment Info

When a sale is ready for payment, scroll down to the **Payment Information** section. You can add multiple payment methods using different tabs:

1. Credit/Debit Card:

Step 1: Add Card, Add Card

Figure 4.3: Payment - Credit/Debit Card Tab

- **Card Type** - Select Visa, MasterCard, Amex, etc.
- **Provider** - Select payment provider
- **Customer Name** - Name on card
- **Card Number** - Full card number
- **CVV** - 3 or 4 digit security code
- **Card Expiry Date** - MM/YY format
- **Notes** - Any additional notes
- Click **Add Card Detail** to save

2. Bank Account:

The image shows a web form titled "Payment Information" with a subtitle "Collect payment details from the customer". There is a close button (X) in the top right corner. Below the title is a horizontal tab bar with five options: "Credit/Debit Card", "Bank Account" (which is highlighted in blue), "Cheque Electronic", "Cheque to Mail", and "Email Invoice". The main form area contains several input fields arranged in two columns. The left column has fields for "Bank Name", "Account #", "Check #", "Name on License", and a larger "Notes" field. The right column has fields for "Account Holder", "Routing #", "Driver License", and "State ID". Each field has a placeholder text indicating the required format. At the bottom left of the form is a blue button labeled "Add Bank Detail".

Add Bank Detail

Figure 4.4: Payment - Bank Account Tab

- **Bank Name** - Name of the bank
- **Account Holder** - Name on account
- **Account #** - Account number (8-17 digits)
- **Routing #** - Routing number (9 digits)
- **Check #** - Check number (3-10 digits)
- **Driver License** - License number (5-20 characters)
- **Name on License** - Name as shown on license
- **State ID** - State identification
- Click **Add Bank Detail** to save

3. Cheque to Mail:

The screenshot shows a 'Payment Information' modal window with a close button (X) in the top right corner. Below the title is the subtitle 'Collect payment details from the customer'. A horizontal tab bar contains five options: 'Credit/Debit Card', 'Bank Account', 'Cheque Electronic', 'Cheque to Mail' (which is highlighted in blue), and 'Email Invoice'. The main content area is divided into several sections: 'Cheque Number' with a text input field containing 'Cheque Number'; 'Name on Cheque' with a text input field containing 'Name on Cheque'; 'Bank Name' with a text input field containing 'Bank Name'; and 'Notes' with a larger text area containing 'Your description here'. At the bottom left of the form is a blue button labeled 'Add Cheque to Mail'.

Figure 4.5: Payment - Cheque to Mail Tab

- **Cheque Number** - Check number
- **Name on Cheque** - Name printed on check
- **Bank Name** - Issuing bank
- **Notes** - Additional details
- Click **Add Cheque to Mail** to save

4. Email Invoice:

The screenshot shows the same 'Payment Information' modal window, but with the 'Email Invoice' tab selected and highlighted in blue. The 'Cheque to Mail' tab is now greyed out. The form fields have been updated: 'Email Address' is a text input field containing 'customer@example.com'; 'Notes' remains a text area with 'Your description here'. The blue button at the bottom left is now labeled 'Add Payment Email'. Below the modal window, the text 'Customer Information' is visible.

Figure 4.6: Payment - Email Invoice Tab

- **Email Address** - Customer's email for invoice
- **Notes** - Any additional information
- Click **Add Payment Email** to save

Important: Always verify payment information with the customer before submitting! Double-check card numbers and account details.

4.4 Adding Notes to Sales

Add notes to track important information about a sale. Notes can include appointments and comments.

The screenshot shows the SalesCRM Admin Portal interface. A modal titled 'Add Note' is open, displaying the following fields and information:

- Customer's State:** AL (CDT). Below it, a note says: 'Enter appointment time in customer's local timezone. Pakistan time will be shown below.'
- Appointment Date (Optional):** A date picker showing 03/21/2026. Below it, a note says: 'Leave empty if no appointment needed.'
- Customer's Local Time (CDT):** A time picker showing 10:39 PM. Below it, a note says: 'Required if appointment date is set.'
- Pakistan Time (Your Time):** 08:39 AM (PKT).
- Note:** A text area containing the text: 'note for any agent, add Appointment related to this sale,'. Below the text area, it says '59/500 characters' and provides a note format: 'Note format: YYYY-MM-DD HH:MM - (your note) [Appointment: YYYY-MM-DD HH:MM]'.

At the bottom of the modal are 'Cancel' and 'Add Note' buttons. The background shows the 'Step Lead-Call: Lead Call' section with 'Additional Info' and 'Notes' tabs.

Figure 4.7: Add Note Popup with Appointment

Add Note features:

- **Customer's State** - Shows customer's timezone (e.g., AL - CDT)
- **Appointment Date** - Optional - set a callback date
- **Customer's Local Time** - Enter time in customer's timezone
- **Your Time** - Shows converted time in your timezone (e.g., Pakistan Time)
- **Note** - Write your note (up to 500 characters)
- Click **Add Note** to save

Tip: When setting appointments, enter the time in customer's timezone - the system automatically converts it to your time!

Notes Section:

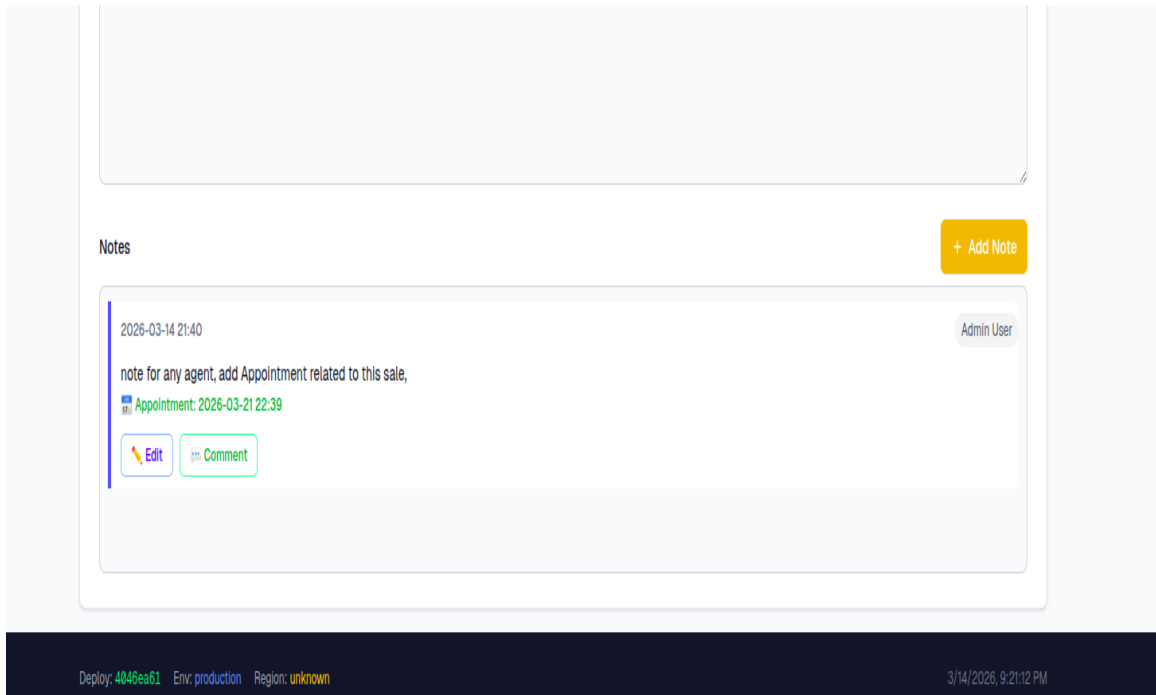

Figure 4.8: Notes Section showing saved notes

Each note displays:

- **Date & Time** - When the note was created
- **Note Content** - Your note text
- **Appointment Link** - If appointment was set, shows date/time
- **Agent Name** - Who created the note
- **Edit** - Modify the note
- **Comment** - Add comments to the note

Adding Comments to Notes:

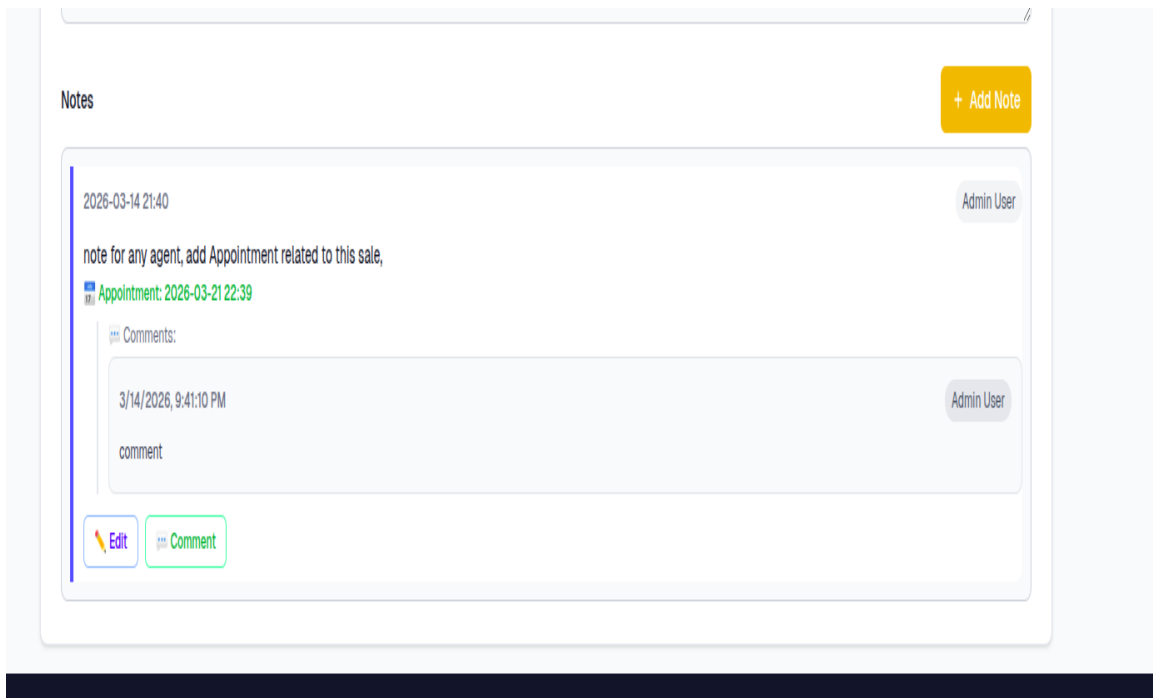

Figure 4.9: Notes with Comments expanded

- Click **Comment** button to add a comment to any note
- Comments show date, time, and who made the comment
- Great for team communication about a sale
- Supervisors and admins can add comments to agent notes

5. Customers

The Customers page shows all customers you've worked with.

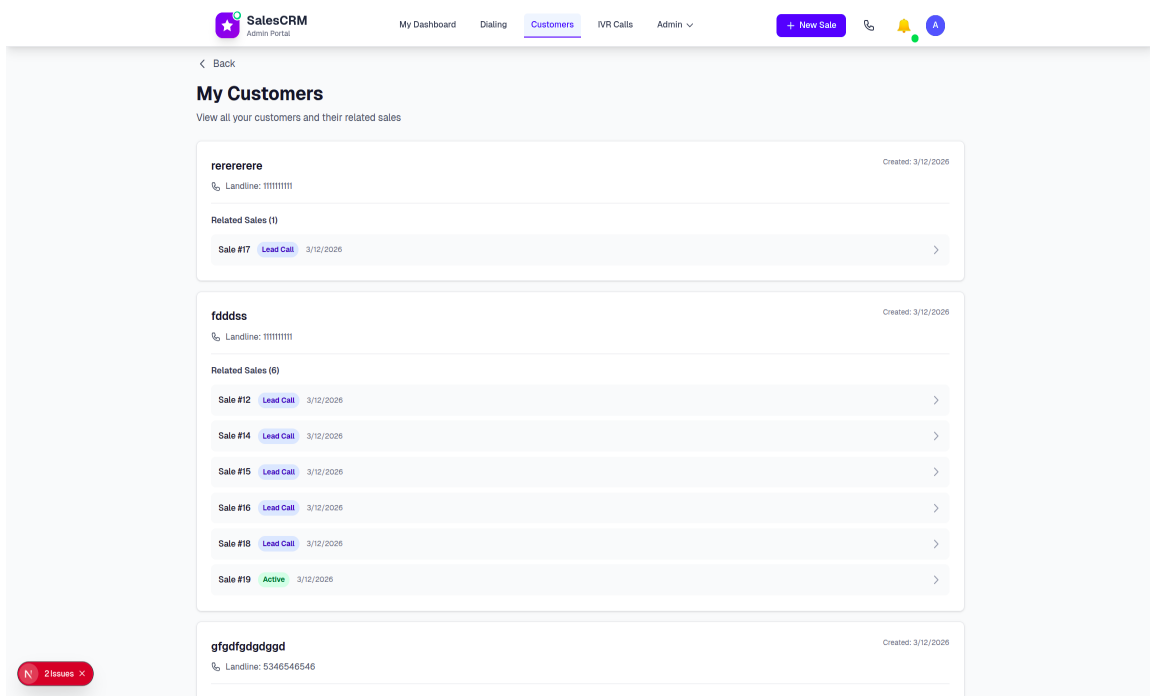

Figure 5.1: Customers Page

Each customer card shows:

- Customer name and contact info
- Location (State, City)
- Related sales with status badges
- Click any sale to view/edit it

6. Appointments

Track all your scheduled callbacks. Appointments are shown on your dashboard and in the dedicated Appointments page.

Dashboard Appointments Summary:

Your dashboard shows appointment summary at the top:

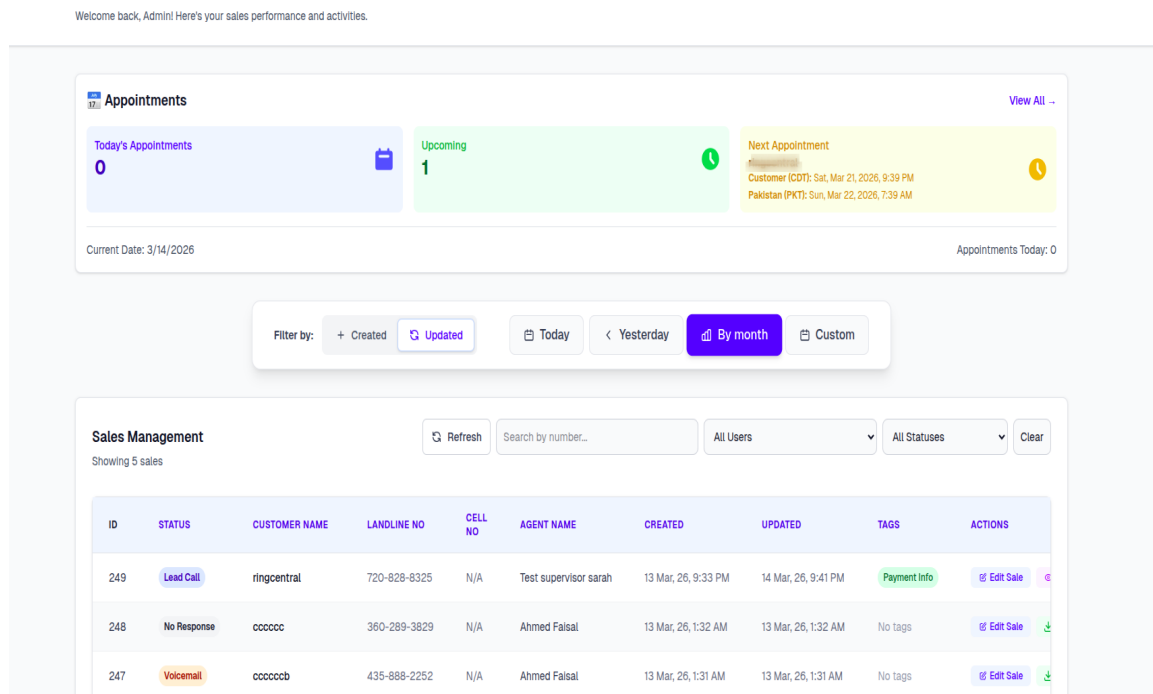

Figure 6.1: Dashboard with Appointments Summary and Sales Table

Appointments Summary shows:

- **Today's Appointments** - Number of callbacks for today
- **Upcoming** - Total upcoming appointments count
- **Next Appointment** - Customer name and both timezones:
 - Customer (CDT): Time in customer's timezone
 - Pakistan (PKT): Time in your timezone
- Click **View All** → to see all appointments

All Appointments Page:

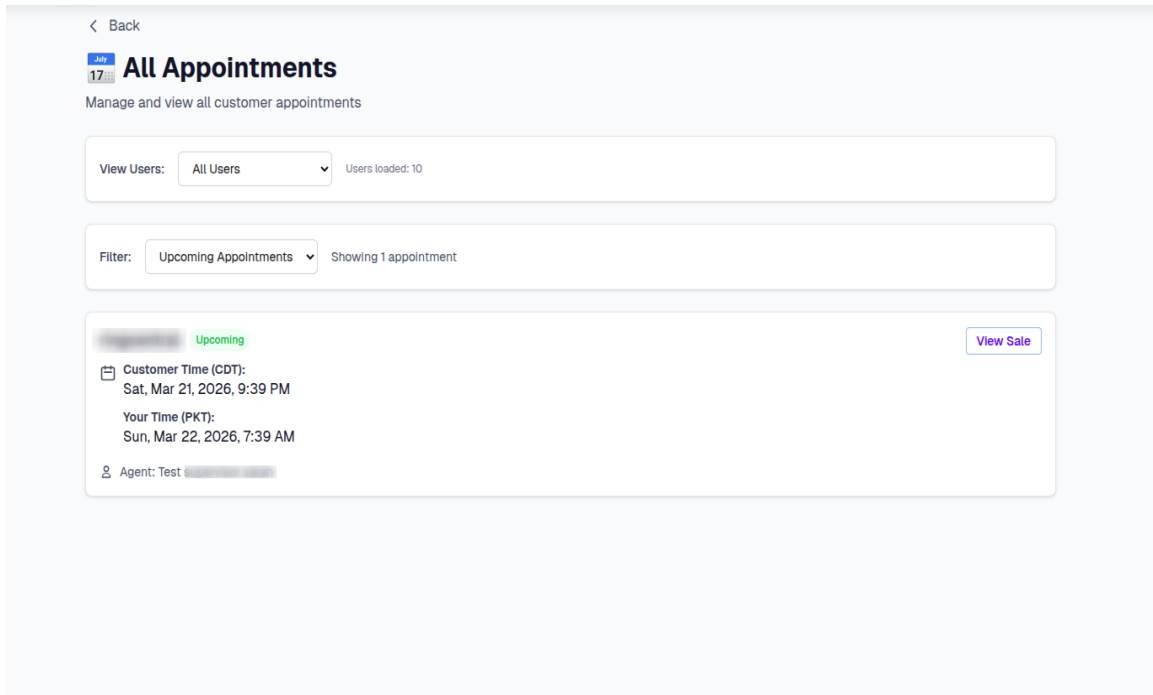

Figure 6.2: All Appointments Page

Filter appointments by:

- **View Users** - Select specific agent or All Users
- **Filter** - Upcoming Appointments, Today, Past

Each appointment card shows:

- **Customer Name** with status badge (Upcoming/Today/Past)
- **Customer Time (CDT)** - Time in customer's timezone
- **Your Time (PKT)** - Time converted to your timezone
- **Agent** - Which agent has this appointment
- **View Sale** - Click to open the related sale

Tip: The system automatically converts appointment times between customer's timezone and yours - no manual calculation needed!

7. For Supervisors

As a supervisor, you have additional capabilities to manage your team.

Supervisor Features:

- View sales from your supervised agents
- Filter dashboard by agent
- View team appointments
- Toggle between your sales and team sales

To view team sales:

1. Go to your Dashboard
2. Use the **User dropdown** to select an agent
3. Or toggle **My Appointments** to see team appointments

8. Tips & Troubleshooting

Quick Tips for Success

- Always **Check Number** before creating a new sale
- Add **notes** to calls for future reference
- Schedule **appointments** in the customer's timezone
- Update sale **status** promptly
- Check **notifications** regularly for updates

Common Issues

Can't sign in?

- Check your email and password
- Enable location permission
- Contact your supervisor for password reset

Calls not working?

- Allow microphone access in browser
- Check your internet connection
- Ensure Twilio is enabled (ask admin)

Session expired?

- This happens after inactivity - just sign in again
- You may have signed in from another device

Need more help? Contact your supervisor or system administrator.
